PROJECTS

1. Career Guidance Web Application

Tech Stack: HTML, CSS, JavaScript, Firebase
🔗 **Live Link**: https://surekhachavanchavan7-cyber.github.io/career-guidance/index.html

- Developed a web application to help students explore engineering colleges based on fees, placements, eligibility, hostel facilities, scholarships, and location
- Implemented **Admin and Student modules** for managing and viewing college information
- Added **search and filter functionality** using JavaScript
- Designed a responsive UI using HTML and CSS

2. To-Do List Web Application

Tech Stack: HTML, CSS, JavaScript
🔗 **Live Link**: https://surekhachavanchavan7-cyber.github.io/todo-app-surekha/

- Developed a task management application with add, delete, and complete features
- Implemented dynamic task handling using JavaScript and DOM manipulation
- Designed a clean and responsive UI

3. Bankist App

Tech Stack: HTML, CSS, JavaScript (ES6)
👓 **Live Link**: https://surekhachavanchavan7-cyber.github.io/Bankist-app/

- Built a single-page banking application simulating real-world banking operations
- Implemented login, transactions, fund transfers, loan requests, and account closure
- Used ES6 features and DOM manipulation for dynamic UI updates

4. Tip Calculator

Tech Stack: HTML, CSS, JavaScript
👓 **Live Link**: https://surekhachavanchavan7-cyber.github.io/Tip-Calculator/

- Built a web application to calculate tip amount and total bill
- Implemented form handling and real-time calculations
- Designed a responsive UI for mobile and desktop

5. Guess My Number Game

Tech Stack: HTML, CSS, JavaScript
👓 **Live Link**: https://surekhachavanchavan7-cyber.github.io/Guess-Number/

- Implemented random number generation and score tracking
- Added real-time user feedback and reset functionality

6. Modal Window

Tech Stack: HTML, CSS, JavaScript
👓 **Live Link**: https://surekhachavanchavan7-cyber.github.io/Modal-Window/

- Designed a reusable modal popup with open/close functionality
- Implemented overlay effects and smooth animations
- Ensured responsive design across devices
